

Medicaid

More Than Health Care

Medicaid funds nearly all supports and services for children and adults with intellectual/developmental disabilities (I/DD), including employment services, personal care in the home, respite, environmental modifications, therapies, assistive technology. These services allow people to exercise their choice, remain healthy, and live live meaningful and productive lives at home and in the community.

Medicaid has you covered. A variety of Medicaid funded programs, such as Apple Health, Community First Choice (which includes personal care), and DDA’s Home and Community Based Services Waivers provide a broad spectrum of services. Most individuals with I/DD are enrolled in more than one Medicaid program. The graphic below includes many (but not all) of the valuable services paid for through various Medicaid programs. To find out what you are eligible to receive, talk to your DDA Case Resource Manager.

Health Care

- Medical
- Dental
- Mental Health
- Therapies
- Early and Periodic Screening, Diagnostic and Treatment (EPSDT)
- Equipment & Supplies
