

Enhanced Respite Services

Short-term respite, stabilization, and plan development for children and youth with I/DD (ages 8-18)

Enhanced Respite Services

Enhanced Respite Services provide access to short term respite services in a structured community-based setting for DDA enrolled children and youth who meet specific criteria (see below). Services are intended to provide a break in caregiving for families/caregivers; the opportunity for behavioral stabilization of the child; and the ability to partner with the state in the development of an individualized service plan to enable the child to return and remain at home.

Supports and Training for the youth and family include:

- Short-term break in caregiving, up to thirty (30) days total in a calendar year.
- Data related to the child’s challenging behaviors which can be used in the development of a Functional Assessment (FA) and a Positive Behavior Support Plan (PBSP).
- Participation in service coordination with the Case Resource Manager (CRM).
- Observation and development of therapeutic teaching and training techniques that are useful to support their child upon his/her return home.
- Identification of the child’s need and eligibility for enrollment in the appropriate Home and Community Based Services (HCBS) Waiver.

Services are Provided in Licensed Staffed Residential homes, in lieu of a short term stay at a Residential Habilitation Center. Each setting has up to 4 individuals in the home at a time.
